You can gain specialist dental skills at UWA

Doctor of Clinical Dentistry

A limited number of places are available for the mid-year intake (Semester 2, 2016) for the Doctor of Clinical Dentistry in the specialist areas of:

- Endodontics
- Oral Medicine
- Periodontics
- Paediatric Dentistry

The Doctor of Clinical Dentistry is designed to prepare dentists for admission to specialist dental practice. It is a fee-paying coursework degree and extends over a minimum of three years full-time.

Applications are to be submitted online at studyat.uwa.edu.au/postgraduate/apply.
